NEW YORK PRIVATE EQUITY FORUMS

CHIC Workshop

The Oncosimulator- Combining Clinically Driven and Clinically Oriented Multiscale Cancer Modeling with Information Technology in the In Silico Oncology Context

Dr. Georgios Stamatakos
National Technical University of Athens, Greece

Dr. Norbert Graf
Saarland University, Germany

Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of PeerPoint Medical Education Institute and Conference Series, LLC. PeerPoint Medical Education Institute is accredited by the ACCME to provide continuing medical education for physicians.
### Day 1

Title- Future Paradigms for Precision Oncology
Giannoula Lakka Klement, Tufts Medical Center, USA

Title- Evidence for Existence of a Small Population of Radiation Resistant Stem Cells
Herman Suit, Massachusetts General Hospital, USA

Title- Cell differentiation and differentiation therapy in neuroblastoma
Liqin Du, Texas State University, USA

Title- PARP1 inhibition sensitizes Ewing sarcoma cells to DNA damage
Raushan Kurmasheva, University of Texas Health Science Center San Antonio, USA

Title- Tumor-derived CD200 Inhibits the Development of an Anti-tumor Response: Implications for Immunotherapy
Michael R Olin, University of Minnesota, USA

Title- Transabdominal ligation of the thoracic duct with pericardial-peritoneal shunting in a case of primary idiopathic chylosous pericardial effusion
Sandra Rivera Beltran, USA

Title- Individualized treatment with an optimal risk-benefit in children using pharmacokinetic-pharmacodynamic modeling in pediatric diseases and solid tumors
Imke H. Bartelink, University of California, USA

Title- Computational Horizons In Cancer (CHIC): Developing Meta- and Hyper-Multiscale Models and Repositories for In Silico Oncology – Strategies, Systems and Results
Multiauthors, On Behalf Of The CHIC Consortium, Greece

Title- Defining the risk factors of cardiometabolic risk in survivors of childhood brain tumors
M. Constantine Samaan, McMaster University, Canada

Title- In silico Oncology- Computational Horizons in Cancer Systems Biology and Multiscale Cancer Modeling
Ravi Radhakrishnan, University of Pennsylvania, USA

Title- A custom gene panel for interrogating paediatric overgrowth disorders and tumour predisposition
Elizabeth Algar, Hudson Institute of Medical Research, Australia
Title- Autoimmunity and childhood cancers
Nalini Kant Pati, Australian National University, Australia

Title- CHIC-CDR -a repository for managing multi-modality clinical data and its application to in-silico oncology
Daniel Abler, University of Bern, Switzerland

Title- Metabonomic: principles, applications in the pediatric field and epidemiology
Duquesne Marilyn, University of Mons (UMONS), Belgium

Title- New age for pediatrics Oncology?
Annick Beaugrand, Federal University, Brazil

Title- CHIC (Computational Horizons in Cancer) - Perspective from the clinical side
Norbert Graf, Saarland University, Germany

Title- Integrating CHIC technologies into a Clinical Research Application Framework ("CRAF") for cancer modelling
Kostas Marias, Institute of Computer Science of the Foundation for Research and Technology Hellas, Greece

Title- The Law and In Silico Health Technology: Help or Hindrance?
Marc Stauch, Leibniz University Hannover, Germany

Title- The Oncosimulator - Combining Clinically Driven and Clinically Oriented Multiscale Cancer Modeling with Information Technology in the In Silico Oncology Context
Georgios Stamatakis, National Technical University of Athens, Greece

Title- Detection of Occult Hepatitis B Virus Infection among Frequently Blood Transfused
Gehan Lotfy Abdel Hakeem, Minia University, Egypt

Title- Pediatric Hodgkin Lymphoma: A Retrospective 10-Year Experience in Children & Adolescents with Hodgkin Lymphoma Treated in King Fahad Medical City (KFMC)
Nahla Ali Mobark, King Fahad Medical City KFMC, Saudi Arabia

Title- Pediatric Non-Hodgkin Lymphoma: A Retrospective 7-Year Experience in Children & Adolescents with Non-Hodgkin Lymphoma Treated in King Fahad Medical City (KFMC)
Nahla Ali Mobark, King Fahad Medical City KFMC, Saudi Arabia

Title- A Pilot Trial Of Saudi Honey On Oral Mucositis Among Pediatric Cancer Patients
Soad K. Al Jaouni, King Abdulaziz University, Saudi Arabia
Title- Novel Methodology of Detecting Minimal Residual Disease in Acute Leukemia by Using FTIR Spectroscopy

Soad K. Al Jaouni, King Abdulaziz University, Saudi Arabia

Title- Effect of Phoenix dactylifera palm date (Ajwa) on infection, hospitalization and mortality among Pediatric Cancer patients at single Medical Institute in Saudi Arabia

Soad K. Al Jaouni, King Abdulaziz University, Saudi Arabia

Title- Syndromatic Osteosarcoma, Does It Carry A Poor Prognosis? King Hussein Cancer Center Experience

Abdulqader Al-Hebshi, Prince Mohammed Bin Abdul Aziz Hospital- National Guard Hospital Affair, Saudi Arabia

Title- A Novel Minimal Invasive Ablation of Pedicatric Osteosarcoma with Nanosecond Pulsed Electric Field (nsPEF) as a Palliative Therapy

Xudong Miao, Zhejiang University, China

Title- Tracking down the origin of cancerous stem cell programs in pediatric leukemias

Dengli Hong, Shanghai Jiao Tong University School of Medicine, China

Title- Pain Experience in Children with Advanced Cancer in the Ministry of Home Affairs

Harriet Mtungama, Texila American University, Georgetown, Guyana

Title- Radiation therapy and Nimotuzumab in the treatment of Brainstem gliomas in children and adolescents

Jose Alert, Instituto Nacional de Oncologia y Radiobiologia, Cuba

Title- Familiar functionality with adolescent children with lymphoma no Hodgkin of the Hermanos Cruz policlinic in Pinar del Río.

Yanet corvea Trujillo, Psychology Faculty of the Havana University, Cuba

Title- An unusual presentation of Giant cell tumor in a skeletally immature skeleton

Supreeth Nekkanti, JSS Hospital, India

Title- A rare presentation of skeletal myxoid chondrosarcoma of the 5th metacarpal managed by surgical reconstruction using a novel technique

Supreeth Nekkanti, JSS Hospital, India
ORGANIZING COMMITTEE

Herman Suit
Chief/Professor
Massachusetts General Hospital
United States

Norbert Graf
Director
Saarland University
Germany

Georgios S. Stamatakos
Research Professor
National Technical University of Athens
Greece

Annick Beaugrand
Professor
Federal University
Brazil
SESSIONS AND TOPICS AT GLANCE

- Pediatric Oncology
- Types of Pediatric Oncology
- Pediatric Hematology Oncology
- Pediatric Leukemia
- Neuroblastoma in Children
- Brain Tumor in Children
- Clinical Trials
- Advances in Pediatric Oncology Treatment
- Oncology Nursing and Care
- Advanced Pediatric Oncology Drugs
- Pediatric Oncology Diagnosis
- Radiotherapy
- Pediatric Neuro- Oncology
- Clinical Pediatrics
- Clinical Pediatrics Nursing
- Clinical Pediatrics Care
- Clinical Pediatrics Practices
- Clinical Pediatric Dentistry
- Clinical Pediatric Emergency Medicine
- Entrepreneurs Investment Meet

VENUE ADDRESS:

Holiday Inn Toronto International Airport
970 Dixon Road, Toronto,
Ontario M9W 1J9, Canada
About Toronto

Toronto is the most populous city in Canada, and the capital of the province of Ontario. In 2011, Toronto had a population of 2,615,060, making it the fourth most populous city in North America, after Mexico City, New York City, and Los Angeles. The Greater Toronto Area (GTA) is the most populous metropolitan area in Canada with 5,583,064 people living in the census metropolitan area as of 2011. Classified as an alpha global city by the GaWC, Toronto is an international centre of business, finance, arts, and culture. Located in Southern Ontario on the northwestern shore of Lake Ontario, Toronto is situated on a broad sloping plateau intersected by a vast network of rivers, deep ravines, and urban forest. It anchors the Golden Horseshoe, a densely populated region surrounding the western end of Lake Ontario that is home to 8,686,923 people, or around 26% of the entire population of Canada. The cosmopolitan and multicultural population of Toronto reflects its current and historical role as an important destination for immigrants to Canada. Toronto is represented in seven major league sports, with teams in the National Hockey League, Major League Baseball, National Basketball Association, Canadian Football League, Major League Soccer, Canadian Women's Hockey League, and W-League. The National Football League’s Buffalo Bills used to play select home games in the city from 2008 to 2013. The city’s major sports venues include the Air Canada Centre, Rogers Centre (formerly SkyDome), Ricoh Coliseum, and BMO Field.

The Royal Ontario Museum (ROM) is a museum of world culture and natural history. The Toronto Zoo is home to over 5,000 animals representing over 460 distinct species. The Don Valley Brick Works is a former industrial site, which opened in 1889, and was partly restored as a park and heritage site in 1996, with further restoration and reuse being completed in stages since then. City shopping areas include the Yorkville neighbourhood, Queen West, Harbourfront, the Entertainment District, the Financial District, and the St. Lawrence Market neighbourhood. The Eaton Centre is Toronto’s most popular tourist attraction with over 52 million visitors annually. Greektown on the Danforth is home to the annual “Taste of the Danforth” festival which attracts over one million people in 2 ½ days. Toronto is also home to Casa Loma, the former estate of Sir Henry Pellatt, a prominent Toronto financier, industrialist and military man. Other notable neighbourhoods and attractions include The Beaches, the Toronto Islands, Kensington Market, Fort York, and the Hockey Hall of Fame.
